Hi, Johanna.

I started to modify this and got bogged down right away in how to address the Gold King Spill in the context of the other work. I don't think we can be silent on the incident, but I'm not sure what we can say, either. So I'm sending you the original draft to see what, if anything, you think we might want to glean out of it for the La Plata County Commissioners.

I don't think Paula is in today, so I'm going to reach out to Liz to see if she can provide any input on the remedial process.

Thanks!

Cynthia Peterson
